

## FREE GIFT

Through the courtesy of Jon Aitchison, every member will find in the attached glassine envelope an example of a 1962 Europa stamp specially overprinted to mark the occasion of the March 1, 1988 Stampex meeting in London. The British contingent of Lundy Collectors Club members met informally at the Spring Stampex and exchanged "Puffin" tales.

Jon produced these souvenirs and gave a block of four to everyone who turned up at the Stampex get-together. For the record, the total overprinting was 350 (7 sheets), with stamps individually overprinted with a Trodat 4253 Typomatic hand-operated, self-inking rubber stamp machine. All overprints were done in black and no "errors" exist.
